

Northeast Surgical Wound Care

PCC Integration Available to You

Wound Wizard has completed an update which now provides for seamless integration with Point Click Care, offering our facilities an easy and efficient way to update their residents' records. With the new integration, the wound visit notes will be uploaded to Point Click Care when your wound provider has completed the note.

If you are interested in the integration, please instruct your PCC Administrator to request integration directly through PCC. Please see next page for step by step instructions.

If you have any questions please call our office and ask for Kaylee at 216-643-2780 ext 116.

We are appreciative of our nursing home partners that assist us in furthering our mission in providing compassionate care and unfailingly responsible service.

Sincerely,

Destini Martinez

Business Development Officer
